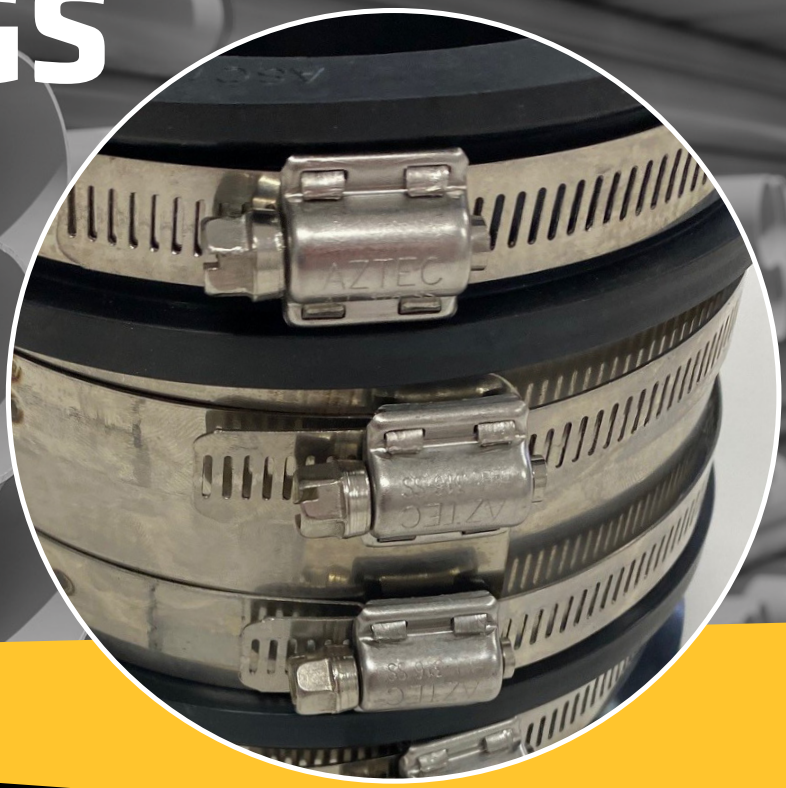
AZTEC

SHIELDED COUPLINGS



ENSURES
NO PIPE DISPLACEMENTS

DESIGNED TO SUIT AUSSIE CONDITIONS

Connecting or repairing pipes on sewer and drainage lines.

- ✓ Additional wrap around stainless steel coupling to suit robust conditions
- ✓ Withstands an internal pressure of up to 1 bar
- ✓ Stainless steel shielded band prevents pipe displacement
- ✓ Complies with AS/NZS 4327–1995
- ✓ WaterMark® approved and WASA approved

AZTEC

Aussie Tough. Aztec Smart.

SCAN ME

AZTEC

SHIELDED COUPLINGS

Aztec now have a range of shielded couplings designed for robust Aussie conditions. Specifically designed for the connection or the repair for pipes on sewer and drainage lines. The additional Stainless Steel wrap around coupling supports the middle section of the coupling, allowing the pipes to stay aligned and ensure minimal pipe displacement in robust conditions.

LEGEND

1. EPDM Rubber
2. Stainless Steel band - to increase shear strength & to reduce pipe displacement
3. All SS316 heavy duty clamps

Our Range

Coupling Code	Description
ASC100-115	AZTEC Shielded Flexible Coupling 100-115mm
ASC110-125	AZTEC Shielded Flexible Coupling 110-125mm
ASC125-150	AZTEC Shielded Flexible Coupling 125-150mm
ASC160-180	AZTEC Shielded Flexible Coupling 160-180mm
ASC175-200	AZTEC Shielded Flexible Coupling 175-200mm
ASC225-250	AZTEC Shielded Flexible Coupling 225-250mm
ASC265-290	AZTEC Shielded Flexible Coupling 265-290mm

Bush Adaptors

Coupling Code	Description
ASCB15/105-115	AZTEC Bush ID 105-115mm Thickness 15mm
ASCB16/154-164	AZTEC Bush ID 154-164mm Thickness 16mm
ASCB8/105-115	AZTEC Bush ID 105-115mm Thickness 8mm
ASCB8/115-125	AZTEC Bush ID 115-125mm Thickness 8mm
ASCB8/150-160	AZTEC Bush ID 150-160mm Thickness 8mm
ASCB8/160-170	AZTEC Bush ID 160-170mm Thickness 8mm
ASCB8/170-180	AZTEC Bush ID 170-180mm Thickness 8mm
ASCB8/240-250	AZTEC Bush ID 240-250mm Thickness 8mm
ASCB8/255-265	AZTEC Bush ID 255-265mm Thickness 8mm
