

SOLAR RANGE

MASTER FLASH

MADE FOR AUSSIE CONDITIONS - AUSSIE TOUGH AZTEC SOLAR RANGE

With Aztec's signature flexible design, **Master Flash®** will meet virtually all your roof flashing needs – metal and tiled roofs, solar, heating, ceiling electrical fans – we have you covered.

Made of EPDM or silicone, **Master Flash®** is specifically designed to resist weathering from UV rays and ozone. With a one-piece construction, installing **Master Flash®** could not be easier.

Aztec's **Master Flash®** range is designed by our team of engineers and manufactured under strict guidelines for quality and high performance – so it stands the test of time. We're so confident in our products that we offer a 25-year satisfaction guarantee on all installations.

Key Features include:

- We've got you covered up to a 1 mt diameter pipe
- One-piece Construction – allows for easy on-site installation
- Base Flexibility. The base is designed to form a seal on most roof profiles and roof pitches regardless of pipe location
- Perfectly designed to ensure a watertight seal
- Pipe diameters can be seen clearly for a proper pipe fit
- Ozone and UV protection
- Temperatures can be as hot as 260 degrees celsius - covering most applications.
- Available in Black, Grey and Silicone Red
